EXPERIENCE

Wide Open Technologies

Full Stack Web Developer

Asheville, NC ~ June 2016 to June 2017

- Develop single page web applications, complex integrated systems, and large-scale eCommerce sites independently and on small teams.
- Collaborate with designers to create clean interfaces and simple, intuitive interactions and experiences.
- Carry out quality assurance tests to discover errors and optimize usability.
- Maintain an optimal workflow while working on multiple projects. Follow instructions from senior developers and program managers.

The Iron Yard

Teaching Volunteer

Computer Coding Classes for Elementary Aged Students
Charleston, SC ~ April 2016

- Work on a team of developers, teaching children to make computer programs. Assist in teaching concepts such as loops, the cartesian plane, and booleans to increase the students' understanding of programming.
- Offer instruction as students build their own programs.
